Josiah Prathaban.

Frontend Developer & UI/UX Designer

PROFILE

Frontend developer and UI/UX designer with 4+ years of experience building web interfaces and educational games, backed by 10+ years of independent graphic design work beginning during school. Combines visual design with frontend implementation to create clear, interactive experiences. Co-founder of Keture, leading teams, coordinating projects, and contributing UI designs across client products. Experience spans game interactions, business applications, and SCORM-based learning content.

PROFESSIONAL EXPERIENCE

Software Developer (Contract)

Jun 2022 – Present

Hamochi · Educational games, Malaysia

- Design and develop interfaces and interactive learning games for children using Vue.js and Phaser.js.
- Translate learning activities into playable experiences, implementing game mechanics, animations, sound, and interface interactions.
- Collaborate with game designers, artists, and developers to deliver new games and refine existing experiences.
- Optimize game performance and maintain cross-browser compatibility.

Co-Founder & Team Leader

Jan 2022 – Present

Keture · Software services, Sri Lanka

- Lead team coordination, project planning, and client communication across web applications, mobile products, and business systems.
- Translate client requirements into project scope, delivery priorities, and UI designs, working with designers and developers throughout delivery.
- Contribute interface design and design direction across client projects, connecting visual decisions with frontend implementation.
- Design and develop the Keture company website, shaping its visual presentation and project showcase.

Short-Term Expert · E-learning Development

Sep 2025 – Aug 2026

Colombo Language School · SLGTI project

- Converted lesson content into SCORM-based learning packages as part of a short-term expert pool for an SLGTI project.
- Designed and developed HTML-based lesson interfaces, combining UI work with frontend implementation to present learning content.

Software Engineering Intern

Jul 2021 – Feb 2022

Codevita

- Developed and maintained Laravel web applications and collaborated with the UX team on interface implementation.
- Integrated third-party services, including authentication, maps, payment gateways, and SMS.

Josiah Prathaban.

University of Kelaniya, Sri Lanka

· GPA: 3.86

LANGUAGES

Tamil · Native

English · Good working proficiency

Sinhala · Basic

SELECTED PROJECT EXPERIENCE

Keture · Team and project management, with UI design contributions across the portfolio.

Keture company website

keture.com ↗

Designed and developed the company website to present its services, team, and project portfolio.

Client platforms & product interfaces

keture.com/projects ↗

Contributed team leadership, project coordination, and UI design across Keture engagements. Selected portfolio work includes Paralegal's product redesign, the IMSO information management system, and the F3 fisheries marketplace.

Recent Keture delivery

Team and project management across newer engagements, including the MortgAIge application MVP, CeylonReload recharge platform, and a hospital and doctor channeling platform.

INDEPENDENT PROJECTS

Kirubai Sathiyam

kirubaisathiyam.org ↗

Created a Tamil Christian content website bringing together articles, books, and Bible resources, with a focus on content organization and reading interfaces.

The Bible World

thebibleworld.org/en ↗

An independent biblical exploration game project, extending my interest in interactive experiences and game development.

Invitaions.online

invitaions.online ↗

A hobby project creating online invitations for clients, combining graphic design with web-based presentation.

Independent graphic design

10+ years of independent graphic design work, beginning during school, using Adobe Photoshop, Adobe Illustrator, and other design tools across a range of creative projects.
